Yonsei University  
Seoul, South Korea

Dear Madam:

I am writing to express my strong interest in applying to your university as a freshman student. I, Kristel Ordoño is currently studying in Makati High School. I will be graduating this upcoming July 2024. According to my friend, you are open to accept applicants for this coming school year. I also did some research, and I found out that you are the best school for people who wants to be a programmer someday. I would want to be a part of the College of Programming. I want to take Bachelor of Science in Information Technology.

I want to be a programmer as I go through high school, I realized that there is a big need for me to achieve my career goal. As an international student, I know that this school can help me to be one of the best programmers in our country. My skills can be also developed with the kind of training that your school has. Currently, I'm running for honors. I'm also a part of the organization in our school. One of that is the Mathematic Club. All of these have trained me to become very hardworking, to manage my time and to become a leader and a follower at the same time.

I already attached documents that you are asking for. I'm looking forward in being a part of your prestigious university. I hope you can consider my application. Thank you for your time.

Sincerely,

KRISTEL ANN JOY M. ORDOÑO
