Gerald Francisco P. Timoner

University of Santo Tomas

Santa Rosa, Laguna

Dear Sir, Gerald Francisco P. Timoner

I, Justine B. Bumagat want to apply as a college freshman student in your university, at this time im studying at Makati High School and I will be graduating this coming month September 2025. Based on my neighbors, you are accepting applications for the upcoming school year. I did some research and find out that you have a high reputation and best school in the country. I would like to be part of your future physical activities, I want to take a Bachelor of Physical Education.

Since I was a child, I already want to be a coach for a basketball team. As I progressed through high school, I recognized that there was a significant need for me to reach my professional ambition. I've seen how coaches help their players to achieve their goals. I am confident that this school will be my guide to reach my ambitions and develop or have an experience in coaching. I'm now running for high honors. I'm also involved in several of our school's organizations. One of that is the Supreme Student Government. I am the president for batch 2023-2024. I also joined some contests in our school like basketball in intramurals and basketball in sportfest. Fortunately, my team prevailed and won the championship medal. All of this activity taught me that trust is everything and teamwork is important.

I already attached the documents that you are asking for. I'm looking forward in being a part of your prestigious university. I hope you can consider my application. Thank you for your time.

Sincerely,

JUSTINE B. BUMAGAT
